PROMPT SHEET 4

TURN-IN-THE-ROAD / LEFT REVERSE

Turn in the Road

- Park close to the curb in a Safe, Convenient & Legal place
- Find Biting Point in 1st Gear – using clutch only
- 360° observation
- Move SLOWLY – turn full lock right QUICKLY
- Look out for traffic & pedestrians – STOP if they look like they are going past the car
- Brake & Clutch down before getting to curb
- Handbrake UP & into reverse
- Find Biting point
- 360° observation
- Move SLOWLY – turn full lock left QUICKLY
- Look out for traffic
- Look over right shoulder & see curb in corner of window
- Handbrake UP & into 1st Gear
- Find Biting Point
- 360° observation
- Move SLOWLY – turn to the left QUICKLY (may not need to go full lock)
- Look out for traffic
- Straighten up & check Mirrors

Left Reverse

- Stop on left BEFORE road on left in a Safe, Convenient & Legal place
- Move off from curb & go past road.
- Stop about 2 car lengths past road, a drain's width away from curb
- Find Biting Point in reverse Gear – using clutch only
- 360° observation
- Move SLOWLY backwards in straight line
- Look out for traffic & pedestrians – STOP if they look like they are going past the car
- Find Point of Turn (front part of handle level with gap between 1st & 2nd white dots)
- Turn wheel approx $\frac{3}{4}$ to the left (12 o'clock to 3 o'clock anti-clockwise)
- Keep slow, look EVERYWHERE (Lighthouse / Paranoid)
- Follow curb. If get too close, move wheel RIGHT $\frac{1}{2}$ turn, if loose sight of curb, turn LEFT $\frac{1}{2}$ turn
- When parallel with curb, straighten up by turning wheel back to 'T' shape
- Come back about 2 car lengths, then stop.
- Don't forget to move off properly BEFORE indicating Left or Right
